

NARCAN SAVES LIVES

IF IT'S GIVEN IN TIME NARCAN CAN REVERSE AN OPIOID OVERDOSE

To administer Narcan: insert fully into nostril and completely depress plunger. Don't test the device beforehand, it will waste the medicine. The person will begin breathing normally when it's working. In some cases, you may need more than one dose, but wait 3 minutes between each dose.

**ANYONE CAN GET NARCAN
WITHOUT A PRESCRIPTION**
